

## BLIND BOX

The PARVEEN Blind Box is used when heavy downward jarring is required to dislodge a fish or push down an obstruction encountered in the tubing string.

<b>BLIND BOX</b>

5.250 - 5.750	2.312	1-9/16 - 10 UN	225746

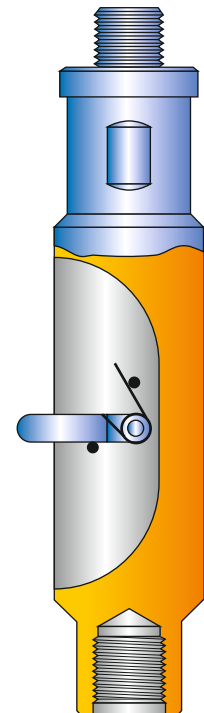

**BLIND  
BOX**

\* Blind Boxes are also available in MM. increments within the specified O.D. ranges.

## TUBING END LOCATOR

The PARVEEN Tubing End Locator is used to locate the end of the tubing. With its spring loaded finger, it can be run in various sizes of tubing ranging from 2-3/8" to 4-1/2".
