

PARVEEN MODEL 'LGK' EQUALIZING CHECK VALVE CHOKE WITH CERAMIC BEAN

The model 'LGK' equalizing check valve choke is a Top No-Go wireline retrievable tool which controls upward flow and prevents downward flow. It is landed and set in the type 'L' sliding sleeve. An integral, erosion resistant, ceramic orifice is sized to control the upward flow as desired, while downward flow is checked with a ball and seat device.

Pressure can be equalized across the valve by breaking the equalizing plug.

SPECIFICATION GUIDE (Inches & Metric)									
Size in.	Seal Bore Size	Size	Max O.D. in.	To Run		To Equalize		To Pull
